SYNOPSIS

Video surveillance was conducted at an underground injection well which showed a blue semi tractor and flat bed trailer pull up to the well with a load of drums. The vehicle was onsite for at least an hour.

DETAILS

The USEPA-CID conducted video surveillance of an underground injection well in the area of 31st Road and Comanche Road to the north of Hutchinson and East of Sterling, Kansas from December 13, 2012 to December 27, 2012. During that time period the following video images were captured.

Video file title "PICT0008" date/time stamp of December 14, 2012 11:13, showed a blue semi tractor pulling a flat bed trailer with side fencing pull alongside the injection well. The trailer contained a number of poly drums and bulk totes.

Video file titled "PICT0009" date/time stamp December 14, 2012 11:36, showed a white ford pickup truck pull next to a storage tank and a subject got out of the truck and walked over the berm to the storage tank. The blue semi tractor and trailer were still parked alongside the injection well.

Video file titled "PICT00010" date/time stamp December 14, 2012 12:12, showed the blue semi tractor and trailer were still parked at the well.

Video file title "PICT00011" date/time stamp December 14, 2012 14:40 showed the blue semi tractor and trailer was no longer parked at the well.

The video files are too large to attache to this report and are stored in the case file.
